18050	ALL	Universal Spare Tire Inflation System (36" Braided Stainless Steel)

Trailer Tires Pneus de remorques

Maxxis trailer tires combine rugged durability with advanced construction for a smooth, comfortable ride. The advanced tread compound, coupled with a muscular polyester carcass, gives you a variety of workload options.

- The M8008 is a high-speed radial constructed tire, providing a smooth ride with extended tread life
- Advanced tread compound designed to decrease rolling resistance for improved fuel economy and tread life
- Double steel-belted construction for added strength and vehicle towing stability
- Full nylon cap available in selected sizes for improved uniformity and durability
- Excellent shock absorption while providing superior load-handling performance

OWL = Outlined White Letter

BSW = Black Sidewall
